

The 1st and only accredited school for light aviation in Morocco.

GYROPLANE & FLIGHT TRAINING ON AEROPRAKT AIRCRAFTS

Aviation School Guide

www.marocskydive.ma

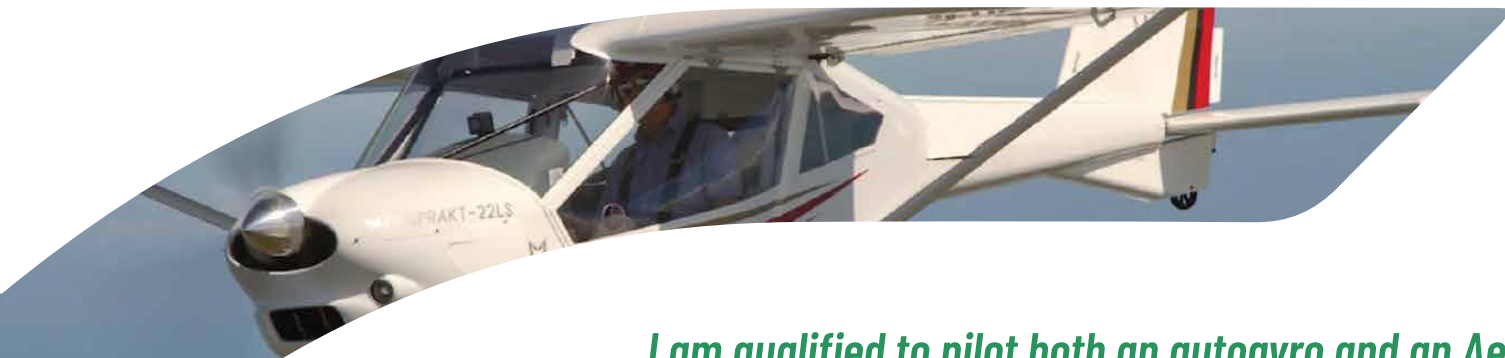

Flight training on gyroplane and Aeroprakt aircraft is available for all skill levels.

No experience? We are here to assist you.

We are a flight school accredited by the Civil Aviation Authority, dedicated to training you for your pilot's license. Join us to explore exciting new destinations and deepen your passion for aviation.

***Are you currently a sport pilot or a private pilot?
Are you considering transitioning to an autogyro
or an Aeroprakt aircraft?***

We are at your service. Adding a Gyroplane or Aeroprakt qualification will complement your fixed-wing license. There is no minimum hour requirement; only a competency assessment in Gyroplane or Aeroprakt is necessary.

I am qualified to pilot both an autogyro and an Aeroprakt aircraft ?

We offer a diverse range of models available for rent. To finalize your rental, it is required to obtain insurance and undergo an assessment conducted by one of our certified instructors.

I have already gained experience piloting a light sport aircraft, but I have not yet had the opportunity to train with a gyroplane or an Aeroprakt.

No worries! Our dual-control, two-seater training aircraft make learning both easy and enjoyable.

What is the fee required for obtaining my license?

Between 60,000 and 70,000 Moroccan dirhams.

What is the duration required to obtain my license?

It is necessary to complete a minimum of 35 hours of theoretical training and 30 hours of practical flight training.

What is the price of an autogyro?

Between 60,000 and 150,000 US dollars.

Would you like to consider purchasing an aircraft and obtaining my license through your organization?

Certainly! We are certified as both a distributor and training center. Additionally, discounts on pilot training courses are available with the purchase of an aircraft.

THE COMMUNITY OF **MAROC SKYDIVE**

Welcome to our great community.

At Maroc Skydive, we foster a tight-knit community of aviators and invite you to join us.

We are committed to providing a comfortable, safe, enjoyable, and functional learning environment, reflective of our aircraft standards.

MAHFOD SALLAM

CEO AND FOUNDER

*Born in Yemen in 1985 and holding Moroccan nationality,
I obtained a private pilot license in 2016.*

I am an experienced pilot of various aircraft types such as Cessna, autogyro, Aeroprax, Delta, and Luna. Additionally, I am a certified skydiving instructor by the United States Parachute Association and a member of the French Parachuting Federation.

I also serve as a paragliding and paramotoring instructor, and I am an authorized agent for several aeronautical manufacturers. Currently, I am involved in establishing the largest skydiving club in Africa, based in Morocco.

I achieved first place in the Throne Cup Championship held in Morocco and have been awarded two gold medals by the Royal Moroccan Aviation Federation.

ANGEL MALAGON PRIETO

INSTRUCTOR

*Born on May 3, 1962, in León, Spain,
I am an experienced gyroplane flight instructor.*

I have significant experience in autogyro aviation, accumulating 4300 flight hours as a pilot.

As an AG flight instructor, I have amassed 3400 teaching hours. Additionally, I have logged 600 flight hours as a private pilot. Since 2010, I have served as the flight manager at the Malagon Flight School.

From 2008 to 2021, I was involved in the construction of SMARTFLY autogyros.

In Spain, I am recognized as a pioneer in this field, being among the first pilots to practice this type of flying in the country.

JEAN CHRISTOPHE GIBERT

INSTRUCTOR

*Born on January 24, 1959, in Lyon (3rd arrondissement), France.
I am a certified instructor for 3-axis microlights and autogyros.*

I am an examiner for IULM, specializing in Class 3 and 4 breaks under registration number 02050003891, and serve as the pedagogical manager at the ULM Training School in Vaucluse.

My teaching focuses on piloting techniques for three-axis ULMs and autogyros. Additionally, I am a trainer at the ULM instructor training center, holding the FL Flight Instructor qualification. My skills include demonstrative piloting of three-axis autogyros, as well as certification in paramotoring and flex-wing microlights.

I am a federal parachuting instructor, specializing in introductory freefall and PA aerobatic flights. In 1989, I was a member of the French precision landing champion team.

HAMID HAMMOVANI

INSTRUCTOR

Born on January 1, 1976, in Taza, Morocco, I am a PPL instructor specializing in theoretical and practical training.

With over 500 hours of flight time as a private pilot of single-engine aircraft, I began my career on April 24, 2011.

Since 2018, I have been a ground instructor, and in 2024, I achieved my flight instructor qualification, now assuming responsibility for training.

I have gained experience with a variety of aircraft such as the Cessna 150, 172, 182, 210, PA28, M20K, and A32. In 2011, I won first place in the National Championship Cup in Agadir, Morocco, and have also earned gold medals in competitions organized by the Royal Moroccan Aviation Federation.

MONAIM MOUSA TEVERINI

INSTRUCTOR

*Born on April 2nd, 1974 in Farkhana, Morocco.
I am qualified to teach and practice piloting in three-axis ULM,
pendulum, as well as paramotor.*

I am an instructor with over 5000 flight hours on fixed-wing ultralights, microlights, and paramotors.

Additionally, I am an APPI PPG instructor and hold the French State Certificate as a ULM instructor.

Simultaneously, at 27 years old, I am a parachuting instructor in the French military.

I have had the honor of serving as a jury president at numerous international competitions.

Flying is our passion, and we aim to share it with you.

We aim to revolutionize flying in Casablanca by introducing the use of ultralight aircraft, offering unprecedented panoramic views never seen before.

Imagine gazing at the beauty of our country from the skies on a warm summer evening, after a day of intense work. There are numerous reasons to take the aircraft out of the hangar and take flight, providing an escape from the stresses of daily life.

Feeling the rush of air over the controls and observing the world from a captivating perspective creates an unforgettable experience.

We handle all aspects, from sales to training.

Through our support and pedagogical expertise, we are specially equipped to help you achieve your aspirations of adventure flying without any obstacles. At every step, we accompany you to ensure a smooth and successful experience.

Join the Morocco Skydive Owners Club.

YOUR SATISFACTION IS OUR HIGHEST PRIORITY.

By joining our community, you will benefit from ongoing support and a strong camaraderie, enabling you to share your growing passion with others.
